

STUDENT INTERNET ACCESS AGREEMENT

Internet access is now available to students and teachers at Rochedale South State School. We are very pleased to bring this access to you and we believe that the Internet offers vast, diverse and unique resources to both students and teachers. Our goal in providing this service to both teachers and students is to promote educational excellence in schools by facilitating resource sharing, innovation and communication.

With access to computers and people all over the world also comes the availability of material that may not be considered to be of educational value in the context of the school setting. Rochedale South State School has taken precautions to restrict access to controversial information. Access to the Internet is provided through the Education Queensland Connect Ed. Facilities which have checks in place to prevent students from accessing inappropriate sites. Work on the Internet takes place in a computer lab, the library and classrooms and students are under teacher supervision at all times.

E-mail accounts for each student and teacher in the school will be provided to allow the sending and receiving of messages between classmates as well as other students in classrooms around the world.

The use of the Internet at school relies on the proper conduct of those using it, and they must adhere to strict guidelines. These guidelines are provided here so that you are aware of the responsibilities you are about to acquire. In general, this requires efficient, ethical and legal use of the Internet access.

The Department of Education and Training is collecting your personal information on this form in order to obtain consent for disclosure of a student's personal information to facilitate registration and use of third-party web-based software identified on the form. The information will be used and disclosed by authorised school employees for the purposes outlined on the form.

Student personal information collected on this may also be used or disclosed to third parties where authorised or required by law. This information will be stored securely. If you wish to access or correct any of the personal student information on this form or discuss how it has been dealt with, please contact your student's school in the first instance.

Dear Mums, Dads and Carers

The use of web based educational resources has risen steadily over the last decade. Teachers are increasingly using these resources across Queensland to improve student-learning outcomes.

Our school and teachers make decisions about the best technology to meet the needs of our students. While the Department provides most of the resourcing we use at school, sometimes a need exists that is not included. On these occasions, it is beneficial for students to utilise services provided by third party web-based providers.

Our school wishes to utilise the third-party web-based service providers listed below to aid students' learning. For your child to use these services, their teacher will need to register them as a user. Registering with these providers requires student personal information to be disclosed to the provider of the service. Registration **may** include disclosing the following information about your student:

- Student Name (First Name ONLY)
- Year group
- Class Teacher and
- Student Education Queensland email address

In the case of the services outlined below they are private companies that are hosted *onshore in Australia and/or outside of Australia*. Outside of Australia means that data that is entered to register for these sites will be stored on servers that are not based in Australia and therefore are not bound by Queensland's privacy laws.

We need your permission for the registration and use of these sites by your child. Please complete the consent form below.

Note: It is not compulsory for you to provide this consent – If you decide not to provide consent, this will not adversely affect academic achievement, or any relationships with teachers or the school.

Before you complete this consent form it is important that you understand the reasons that these websites collect this information, what will be done with it, who may have access to it and where the data is stored. This information can be found in the hyperlinks below referring to each website's terms and conditions and/or privacy policy.

Please read these and ensure that you understand the implications of using this service before giving your consent. If you have any queries around the storage of student's information, please feel free to contact the Principal. Please note that, given the significance of the services provided, the school will contact you to discuss your reasons should you not consent or fail to provide a response.

Attached is a list of the third-party web-based service providers we recommend. Not every one of these resources is necessarily used in any one year level.

Kind regards

Stacey Wood
Principal
